

September 6, 2011

The feedback from a significant number of members in our school community is that while they appreciate the fact that a parent, guardian or family member may want to share food with other members of a particular child's class, many families do not want their child to partake in these celebrations for a variety of reasons (e.g. religious reasons, quality of food, quantity of food, cleanliness in preparation, food sensitivities, food allergies). As a school, we cannot guarantee the quality of the food that is brought into the school. As well, these events often interrupt instructional time at school and take away from time on task for learning.

Given this community feedback, we are sending home this permission form to parents indicating their consent to have their child consume food purchased or prepared by someone else while they are at school or not. Teachers will then have a list of students who are permitted to eat food from others, and those that are not. Please note that if families choose to have their children eat food brought into the school from others, the school is released from all liability. Please return this form to your child's homeroom by Friday, September 9, 2011.

Thank you for your continued support.

Sincerely,

S. Askey  
Principal
